

SCREEN MACHINE[®]
AMERICAN-MADE INNOVATION SINCE 1966

3665T

TRACKED STOCKPILER

The 3665T is a compact and nimble mobile stockpiler, yet it packs a punch when it comes to bulk material handling. With a unique 'Boomerang' design, the feed boot height can be adjusted without altering the head drum position. This ensures maximum flexibility without losing stockpile capacity.

The 3665T can receive material directly from a crusher or screen or can be installed in a close circuit application. The machine features a Hi-Torque internal hub drive system which allows it to handle high tonnage. It also integrates easily into the Tesab range of crushers and screeners.

This machine is easy to transport and can be setup in super-fast time making it the ideal product where flexible, high capacity solutions are required.

Features & Benefits

- Up to 400+ tonnes per hour production rate
- Unique 'Boomerang' system allows a stockpile capacity of 970 m³ (1552 Tonnes @1.6T/ m³)
- Hi-Torque drive and engine size combine to reduce fuel consumption
- Range of optional extras available

PERFORMANCE SPECIFICATION * Depending on application

Operating Rate	Stockpile Height	Stockpile Capacity
400+ TPH*	27' (8260mm)	3180' (970m ³)
Conveyor Width		Conveyor Length
36" (900mm)		61' (18,700mm)

DIMENSION SPECIFICATION* * Depending on material density and set-up

TRANSPORT DIMENSIONS		
Height	Width	Length
8' 3" (2530mm)	7' (2140mm)	38' 5" (11,720mm)
MAX WORKING DIMENSIONS		
Width	Length	Weight (est)
7' (2140mm)	57' 4" (17,500mm)	14,000kgs (30,864 lbs)
